MEMORANDUM FOR: NFIP Program Managers

FROM:

  
Deputy to the DCI for Resource Management

STAT

SUBJECT:

Joint Intelligence Community Studies Requested  
by Congress

1. In their authorization reports on the FY 1979 Intelligence Community budget, the SSCI and HPSCI each requested a number of studies to be furnished to them during the current budget cycle. Admiral Turner intends to propose to the Conference that the committees authorize their staffs to work with us to determine mutually acceptable schedules and terms of reference and to coordinate similar committee requirements where possible. I think it is realistic to expect, however, that we will have to provide at least some information on all of the subjects. Almost certainly, additional studies will be generated by other congressional committees and the DCI's Program Review.

2. In the interest of getting the process underway, I am attaching for your comment and action as appropriate a matrix of the Community studies that have been requested thus far and my recommendations for participants, study leaders and monitors. The study leaders will contact the participants shortly to discuss approaches to Congress, to develop work programs and to set milestones. To facilitate this initial contact, would you please forward to the study leaders or monitors the names of those on your staff who will participate on your behalf.

29 August 1978

MEMORANDUM FOR: NFIP Program Managers

FROM:

  
Deputy to the DCI for Resource Management

STAT

SUBJECT: Joint Intelligence Community Studies Requested  
by Congress

REFERENCE: BYE-111629-78 dated 20 June 1978

1. The classified annex to the conference report on the intelligence authorization bill does not address the subject of studies requested in the select committees' separate reports. In the absence of any clarification or relief from due dates, the list of extracts circulated in the reference remains valid and must now be acted upon formally. The conferees did request several additional studies that should be added to the list; they are outlined in the attachment to this memorandum.

2. We have been advised that the select committees will entertain requests for reasonable extensions of the deadlines originally imposed. I urge study leaders and monitors together to negotiate with the staffs, if it appears that you will be unable to fulfill the congressional request within the time allotted. I would appreciate being informed if you are successful and receiving a copy of any correspondence which confirms a new due date.

3. Some reports are nearing completion, others have not really gotten off the ground. It is imperative that we make every effort to produce an acceptable response at the appropriate time. Within a week I will circulate some additional guidance and the names of study leaders/monitors for those reports that still need clarification.
